Authorization for this examiner's amendment was given in a telephone interview with MR. Gamson on 07/21/04.

The application has been amended as follows:

In the specification, page 4, line 14, "39" has been changed to read "30". At line 5, after "up", ---"(see Figs. 3 and 4)"---has been inserted.

The title has been changed to read "Air gap cleaning method".

In claim 2, line 1, after "repeating", "the" has been changed to read "said".

Claim 3 has been cancelled.

2. Claims 1-2 are allowed.

3. The following is an examiner's statement of reasons for allowance:
The prior art of record failed to teach a method of cleaning an air gap in a
plumbing fixture which has a counter-top access connected by a hose to a
drain opening, the method comprising the steps of:

removing a cap from the counter-top access, exposing a cylindrical fitting having a center tube spaced apart from the cylindrical fitting, the cylindrical fitting being connected to the hose, the hose leading to a drain opening;

providing a cleaning brush having a wire handle which has a length greater than the length of the hose, the wire handle being flexible, a plurality of bristles extending circumferentially outwardly from a first end of the handle;

introducing the first end of the cleaning brush into the space between the cylindrical fitting and the center tube;

fully inserting the cleaning brush into the hose connected to the cylindrical fitting until the bristle on the first end of the cleaning brush exit the drain opening and replacing the cap on the counter-top access as claimed.
